the Perfect TreeSaw

Why The Perfect Tree Saw?

- Cuts flush or below surface
- Low maintenance
- Environmentally friendly
- Always safe- no moving parts
- Requires NO Hydraulics
- Saves time

The new Perfect TreeSaw HR-Mini Saw model for ATV/UTV are built with the same quality craftsmanship as the larger models. Like the larger models, the ATV/UTV units have no moving parts or hydraulics - eliminating the high cost of fuel and the expense of repairs to hydraulic equipment. With the introduction of the ATV/UTV models, The Perfect Tree Saw now has sizes to fit all needs, from the small acreage owner to the large commercial land clearing contractor and everything in between.

THE TRUE ORIGINAL IN
THE CUTTING INDUSTRY
SINCE 1974

This clearing blade is designed to saw trees and underbrush from pasture land, fence rows, waterways and levee berms. With the savings in time, fuel, and repairs it allows contractors to under bid the competition and come out ahead with a better profit margin and customer satisfaction with the job it does. The Perfect TreeSaw is widely used for clearing CRP ground, and fence row clean up. If picking and choosing the trees you need to cut is the issue, The Perfect TreeSaw is the solution.

KILL WEEDS FOR LESS THAN A DOLLAR PER ACRE

Weed Management for Hay & Pasture, Soybeans, Milo & Other Row Crops

Eliminates Pigweed, Johnsongrass, Smut Grass, Thistles, Ragweed, Love Grass & Any Other Noxious Weeds!

FARMER TESTED

FARMER APPROVED

"I was extremely impressed... Results were far better than I expected on my 1,800 acre farm in the Ozarks using the 30' flex model. This weed control system saved me LOTS of money on chemicals with NO damage to my legume-based pastures and hayfields."

- SW Missouri Farmer

"I have a 60 acre farm and use the GrassWorks Weed Wiper™ in my hayfields to manage johnsongrass. Not only did I have excellent kill of the johnsongrass, I really liked the fact that I had no drip or no drifting issues. My kill results were very good, the unit works very good and I'd highly recommend this weed management system."

- Mike, Hay and Pasture, KY

"We've had excellent results from the GrassWorks Weed Wiper™. We use the Pull-Type unit with our ATV. It's saved us a lot of chemical."
