# FULL OF BULL

Fall 2022 Edition

## SPUR CATTLE FORWARD

with fewer setbacks.

If your goal is a healthy, profitable herd with strong protection from clostridial disease, then look no further than BOVILIS VISION 7 powered by the proprietary SPUR adjuvant.

- SPUR allows for smoother administration and fewer reactions with less stress than other clostridials<sup>1-2</sup>
- Fewer reactions means more weight gain – an extra 14 lbs at weaning<sup>3-5</sup>
- For every 50 head, that adds up to an “extra calf” at sell time

*Now, that's the kind of momentum we all like to see.*
